

Parker Prince

C: (431) 388-2266 E: chenp2@myumanitoba.ca

Professional Summary

Hard-working First Nation Mechanical engineering student with experience in land development projects. Strong communication skills and go-getter attitude with the proven ability to work collaboratively with team members and engineering professionals.

Education

Bachelor of Science in Mechanical Engineering – Co-op/IPP Option

September 2023-Present

University of Manitoba- Engineering Access Program (ENGAP)

- GPA: 3.99/4.5
- Expected date of graduation: April 2028

Engineering Experience

Engineering Summer Student

May - August 2024

ODK Engineering

- Conducted field surveys and operated survey instruments to measure distance, angles, elevations, and contours in First Nation Communities
- Analyzed data from surveys using Civil 3D, QGIS, and Google Earth to guide design decisions, create maps, and compile data tables
- Wrote and edited project proposals and reports using Microsoft Word
- Worked collaboratively with engineers, First Nation Band Councils, and project managers to ensure project deadlines and work requirements were met

Engineering Skills

Technical and Research

- Executed on-site field surveys in northern and southern First Nation communities employing precision instruments to collect data on topographic features, drainage systems, and municipal utilities and infrastructures
- Assisted with the environmental review process for federally funded projects to ensure project's potential environmental impact meets local environmental standards

Communication

- Applied written and oral communication skills through compiling basic technical reports and presented research posters in a room of approximately 200 people
- Participated in various project meetings with engineers, First Nation Band Councils, and students and took meeting minutes to be distributed to project team

Project Management

- Prepared and assessed progress claims and invoice payments assuring project financials were to date
- Acted as project manager for four undergraduate design projects, crafting and supplying team with Work Breakdown Structures, Gantt charts, drawings, as well as chairing project meetings

Other Experience

Tutor

September 2024 - Present

University of Manitoba

- Provided tutoring services for introductory math and engineering courses to ENGAP students
- Tutored English as a second language to an international student located overseas in China

Teaching Assistant

January - April 2025

University of Manitoba

- Led weekly tutorials for ENGAP students enrolled in Introductory Physics II
- Assisted students in understanding course material and completing assignments
- Proctored quizzes and collected assignments

Radio DJ Assistant

June - August 2019

Sandy Bay First Nation Radio Station

- Answered phones in a friendly manner fulfilling callers requests
- Developed excellent public speaking skills while being live on-air, taking music requests while keeping listeners entertained while improvising in the moment
- Announced weather and community updates regularly on live radio ensuring the community was informed

Volunteer Experience

Off-Reserve Holiday Turkey Giveaway

December 2024

- Helped distribute 335 frozen turkeys to Sandy Bay First Nation off-reserve members during the holiday season

Sandy Bay's Every Child Matters Gathering

September 2024

- Greeted event attendees upon arrival and handed out orange shirts to community members
- Event set up and clean up

Additional Skills

Computer: SolidWorks, Python, MATLAB, Excel, Microsoft Word

License: Valid Class 5 Manitoba Driver's License

Memberships

Student Member, Engineers Geoscientists Manitoba

2024 - Present

Student Member, SAE International

2024 - Present

Interests

- Concerts, Running, and Travelling
